

**T**HIS is to offer you our hearty wishes for a Happy a Christmas as War will allow  
and a New Year bright with Promise. Out of evil good will come. We owe a statue to  
He has done more than any man ever to consolidate our nation, at Home and Overseas  
has given us friends in America and in ALL the countries he has ravaged. Such  
wide friendship will help to world Peace so soon as he and his war clouds are swept away

My wife and I, as evacuees, have settled here in Kenya, in the Africa we love, and in  
the same continent with Peter and Betty and their respective contingents of grand children  
where we hope that Heather and her husband may join us after their war Service. : As to you

Scouts and Guides we are, geographically, more in the centre of things than before, nearer  
to N.Zealand, Australia, India and the East and not much further from Canada and West Indi  
than from England. So, from close up, we can watch you all at your various War Sp  
what you have done you have done well

"SLEEVES UP! AND WITH TAILS UP"  
And after that to bring about Peace
